Murdered by a Youth at Carson City, Nev.

HAD RUINED THE BOY'S SISTER.

The Father Found the U. S. District Attorney With His Daughter-Warned Him to Cease Attentions-Boy Thought His Father In Danger and Fired.

CARSON CITY, Nev., Nov. 10.-In revenge for an alleged wrong to his sister Julian Guinan, aged 16 years, has shot and fatally wounded Charles Jones, United States district attorney. Jones died soon after the shooting. An hour or two after Jones' death Guinan sur-rendered himself at the sheriff's office and confessed that he had shot Jones, whom the boy accused of improper intimacy with his sister.

All parties are prominent.

The statement of the youth, who is now in jail, is to the effect that immediately prior to the shooting he had observed his sister talking to Jones, who was married, with whom his father had forbidden association, when he saw Dr. Guman approaching. Believing trouble to be inevitable when the two men should meet, the boy procured a winchester rifle and stationed himself at a window for the purpose, as

he says, of protecting his father. Upon encountering Jones, Dr. Guinan said to him: "This is the last time I shall ever warn you against keeping company with my daughter."

Jones jeered at the doctor in comment upon his warning and slipped his hand into his righthand pocket. Julian states that having often heard

his father threaten to kill Jones, and having been informed that the district attorney always carried a vevolver, which he believed, from Jones' motion, was about to be drawn, the boy fired at Jones in anticipation of an attack upon his father. Jones fell forward dead.

Miss Guinan, seeing Jones fall, threw herself upon him and embraced the dead body.

PREMIER LAURIER CALLED.

The Canadian Statesman Paid His Respects to the President This Morning The Bering Sea Controversy to Be Settled First-Other Matters to Follow.

Washington, Nov. 10.—General Foster and Sir Julian Pauncefote have conferred as to the arrangements for the meeting of British, Canadian and American representatives relative to Bering sea. A general understanding was reached that the arrival of Sir Wilfred Laurier, the Canadian premier, and party, would permit the meeting to open tomorrow. The British ambassador accompanied the premier to the White House this morning and introduced him to the president.

It is now definitely settled that the coming meeting will take a much broader scope than was first anticipated. At the outset there will be a comparison of notes between the seal experts, Mr. Hamlin for the United States, Prof. Thompson for Great Britain and Prof. Macoun for Canada. The Canadian premier and Sir Louis Davies, Sir Julian Pauncefote and General Foster will be present in an unofficial capacity ready to take up the larger phases of the question, when the seal experts have concluded their exchanges of technical information. It is said that the relations existing between Great Britain and Canada make it essential that all questions of an imperial character should be concluded by the direct representatives of the imperial government. At the same time the presence of the Canadian premier is expected to assist in reaching speedy conclusions, without the usual delays of acting through the 1S British foreign office.

It was said at the state department that the first object would be to reach a settlement on the Bering sea question, and with that out of the way there would be every disposition to favorable conference on border immigration, Canadian-American interests in the Klondike, reciprocity and the other questions which Sir Wilfred and and Energy his associates regard as paramount to

the Bering sea issue.

LONDON, Nov. 10 .- The Marquis of Salisbury, prime minister, in his speech at the lord mayor's banquet, intimated that while England would do everything possible to preserve peace in Africa, she would not allow France to infringe on British rights.

He said the history of the past year was that the European concert had failed to prevent Greece from going to war, but had succeeded in preserving the peace of Europe. It was, he submitted, a great and praiseworthy achievement for the concert to avert that calamity. He continued

An Illinois judge has shown his good business. sense by deciding that no man is compelled to say in court for whom he voted. That is the only way to keep the secrecy of the ballot a secret.

Bossism is a very bad thing for any political party. It places power where the founders of this government never intended power to be placed, and causes complications which can only result in disaster.

It is not at all likely that the Democrats of Ohio will ever again allow a a resident of some other state to step in and control their political organization, even for one campaign. The experience with Brice was not pleasant, and, when coupled with the recent disastrous leadership of McLean, demonstrates the folly of such a course.

THE CIVIL SERVICE.

It is probable that an effort will be made during the next session of congress to repeal the civil service law. Thousands of hungry office seekers, who have not yet secured their share of the spoil, because that particular part is in the hands of Democrats who did all in their power to prevent the election of a Republican president, are bringing pressure to bear upon their representatives in congress, and the end cannot be told. While it is known that many men high in the councils of the party are anxious to see civil service go, it is not at all an assured fact that a majority of representatives and senators can be secured. Some of them remember what a burden was life under the old regime.

TEMPERANCE LEGISLATION.

The death of the Harris bill in the last legislature did not discourage the friends of temperance in the Republican party, and there are reasons for believing that before the coming session ends another battle will have been fought. Let us hope that the temperance cause will triumph. The principle as embodied in the Harris bill is perhaps the best yet put forward for the solution of this most for Sore Throat, Sore Mouth, troublesome question. If the people of Hoarseness and Quinsy. a township or ward do not want saloons they should be given the power to prevent saloons doing business among them. It is not just that they should endure the disgrace simply because their neighbors in some other township or ward can bear it. The bill seeks by a

The Republican legislators can surely obtain sufficient force from the Democratic side of the house and senate to pass without difficulty a measure so meritorious.

The City Fathers Spent a Pleasant Evening, and Transacted a Considerable Amount of Business-Mr. Farmer Came In For a Scorching.

When council was called to order last evening, Messrs. Olnhausen, Marshall and Horwell were absent.

There were not enough members present to pass the resolution and Marshall the resolution was passed.

Clerk Hanley presented the bill of J D. West for \$26 for burying Mrs. Agnes Jane Robison, and Mr. West said he was ordered to do the work by the mayor. The solicitor was asked whether the city should pay the bill, but was not ready with an opinion, and Mr. Ashbaugh moved the bill be referred to him to see whether the city was liable. The motion was carried, but not before Mr. Stewart said: "I don't like that motion. The mayor realized the work should be done, and as the woman had no friends it was nothing more than right. The bill is just and should be paid, and we should no quibble over it."

The pay ordinance was passed, and the bond of T. C. Forster was approved.

Mr. Cain moved the engineer be instructed to show the street railway company where to lay the tracks on the Pennsylvania avenue extension, and after some discussion the matter was left in the hands of the engineer and street committee.

President Peach explained that the Pennsylvania company desired to extend their freight platform, and wanted a committee appointed to confer with them.

Mr. Ashbaugh suggested that it might be wise to first get them to lift the injunction before granting them any privilges, and Clerk Hanley thought they should be required to pave. Messrs. Ashbaugh, Cain and Challis will look after the matter.

MINISTERS HAVE GONE

Will Meet at New Alexander Next Year.

VERY GOOD ADDRESSES

Questions of Interest Were Well Discussed, and Matters Pertaining to the Welfare of the Church Were Disposed of. They Were Well Entertained.

The district conference of the Methodist Episcopal church came to an end last night, and the large number of ministers and laymen in attendance have gone home.

The afternoon session vesterday was well attended and very interesting. After devotional exercises and the reading of the minutes of the morning meeting, Rev. E. T. Mohn gave the "Response of the Steubenville district on securing the missionary debt." The paper was filled with facts, and was followed by an equally meritorious address by Reverend Salmon.

"The effect of the work of Drummond on the religious thought of today" was excellently given by Rev. T. H. Harris, and "What modifications, if any should prevail in revival methods" was the subject given W. A. Haverfield. He was followed by an address on the same subject by W. I. Powell. Dr. Jackson, presiding elder, closed the meeting with an address on "Benevolence and Finance," the gentleman being called upon to answer several questions,

The largest audience of the meeting was present when devotional exercises were conducted last evening by Rev. S. A. Peregoy. The subject of the evening, "Characteristics of a sufficient ministry" was divided into three parts, intellectual, social and spiritual.

"When we have a sanctified purpose we will be free from sentionalism," began Dr. J. M. Huston, in speaking of the first section. "Eloquence is a grand thing for a minister to command. Progressiveness is another element a good minister should have. Humility of the soul, kneeling at the feet of Jesus, are elements essential for the good minister. Let a minister possess a bright mind and be abreast of the times and he will win souls for Christ."

Rev. J. L. Secrest, of Toronto, spoke of the social feature of the subject, filling the place of Doctor Chapman, of Stenbenville. He said:

"I do not believe a man can be converted to God without education in the works of God. Man is a social being, that element is born in him. There is an idea of social life in this world that is leading souls from Christ, and there is a social life that is lifting the long existing barrier between man and God. The minister who tries to win the world through worldly schemes should quit. A minister should be as Christ. He mingled with the people, sat with them, walked and talked with them, showing them the way of God. Let the minister of today teach as Christ taught, and God will be with him."

The third brauch of the subject fell to Dr. W. L. Dixon, Doctor Reager, who had been selected, being unable to be Doctor Dixon's talk was short, but it was right to the point. He made plain that sacred songs were most used in winning souls for Christ, and concluded with: "There is something about sacred music which goes straight to the heart, and that is the particular part of one's body God desires. If music is applied in the right manner much good can be accomplished."

That ended the meeting, and the next meeting will be held at New Alexander, the date to be set by Doctor Jackson. It will probably be in June.

The session was most profitable, and the good people of East End entertained the ministers well. Reverend Salmon was complimented highly for the splendid arrangements, and the manner in which they were carried out.

The reports showed the district to be among the best of the East Ohio conference, Doctor Jackson being ably assisted by an excellent corps of ministers and laymen.

To the Ladies.

The ladies of East Liverpool and vicinity who desire information that will add to their happiness and insure health, should not fail to call on Doctor Wood at the Lakel house, where he can be consulted until Saturday night, Nov. 13, until 9 o'clock.

Klondyke

RECENTIFICATION OF THE PROPERTY OF THE PROPERT

The Land of Golden Nuggets.

JOSEPH LADUE,

the new Bonanza King of the Klondyke Gold Regions, gives the facts. His book reads like "The Arabian Nights," BUT Joseph Ladue KNOWS whereof he writes. He was the first man on the spot when the first gold was discovered last August, 1896. He located one rich claim and immediately purchased welve others at a low price before their value was known. He has refused \$100,000 for any ONE of these claims, as they are rich with virgin gold nuggets, beyond the dream of avarice. Joseph Ladue then

Established Dawson City

at the mouth of the Klondyke and Yukon Rivers, by erecting the first house in the region in September, one month after the gold was first discovered. He bought 178 acres from the government on the city site where his town lots 150x50 are now selling for \$5,000 each.

Mr. Ladue was fortunate enough to be successful in his trading post investments to have on hand ample capital to carry out his plans, and there is no man living who is better posted on Alaska and the great North West Territories than Mr. Joseph Ladue. He has just returned from that country to his old home in Schuler Falls, N. Y., where he passed a large portion of his boyhood and early manhood. Mr. Ladue left his home nearly twenty years ago to seek his fortune in the west going first to the Black Hills, where he was successful in gold mining, thence to Arizona and the Pacific coast and finally located in Alaska and the northwest, where he has covered almost the entire country since 1882. Mr. Ladue is a typical pioneer: strong, hardy and resolute—a man of iron as one must needs be to go through the hardships he has and come out with a constitution unbroken and unimpared at about the age of 43. Mr. Ladue has not only worked his muscles to good advantage to himself with the result of an abundance of the world's goods, far beyond the dreams of men, but he has evidently all this time been closely observing the conditions of that strange country-the Yukon Valley-which has so suddenly become one of the great centers upon which human interest throughout the world is focussed.

When the wonderful stories began to come down from the Yukon country it was naturally concluded that it was at least half exaggeration. That any Book Work. such amount of gold could be taken in so short a time from a country like that under the most most unfavorable conditions was held to be incredible. MINISTERS HAVE GONE

Will Meet at New Alexander Next Year.

VERY GOOD ADDRESSES

Questions of Interest Were Well Discussed, and Matters Pertaining to the Welfare of the Church Were Disposed of. They Were Well Entertained.

The district conference of the Methodist Episcopal church came to an end last night, and the large number of ministers and laymen in attendance have gone home.

The afternoon session vesterday was well attended and very interesting. After devotional exercises and the reading of the minutes of the morning meeting, Rev. E. T. Mohn gave the "Response of the Steubenville district on securing the missionary debt." The paper was filled with facts, and was followed by an equally meritorious address by Reverend Salmon

"The effect of the work of Drummond on the religious thought of today" was excellently given by Rev. T. H. Harris, and "What modifications, if any should prevail in revival methods" was the subject given W. A. Haverfield. He was followed by an address on the same subject by W. I. Powell. Dr. Jackson, presiding elder, closed the meeting with an address on "Benevolence and Finance," the gentleman being called upon to answer several questions,

The largest audience of the meeting was present when devotional exercises were conducted last evening by Rev. S. A. Peregoy. The subject of the evening. "Characteristics of a sufficient ministry" was divided into three parts, intellectual, social and spiritual.

"When we have a sanctified purpose we will be free from sentionalism," began Dr. J. M. Huston, in speaking of the first section. "Eloquence is a grand thing for a minister to command. Progressiveness is another element a good minister should have. Humility of the soul, kneeling at the feet of Jesus, are elements essential for the good minister. Let a minister possess a bright mind and be abreast of the times and he will win souls for Christ."

Rev. J. L. Secrest, of Toronto, spoke of the social feature of the subject, filling the place of Doctor Chapman, of Steubenville. He said:

"I do not believe a man can be converted to God without education in the works of God. Man is a social being, that element is born in him. There is an idea of social life in this world that is leading souls from Christ, and there 87@88 is a social life that is lifting the long existing barrier between man and God. The minister who tries to win the world through worldly schemes should quit. A minister should be as Christ. He mingled with the people, sat with them, walked and talked with them, showing them the way of God. Let the minister of today teach as Christ taught, and God will be with him."

The third brauch of the subject fell to Dr. W. L. Dixon, Doctor Reager, who had been selected, being unable to be Doctor Dixon's talk was short, but it was right to the point. He made plain that sacred songs were most used in winning souls for Christ, and concluded with: "There is something about sacred music which goes straight to the heart, and that is the particular part of one's body God desires. If music is applied in the right manner much good can be accomplished."

That ended the meeting, and the next meeting will be held at New Alexander, the date to be set by Doctor Jackson. It will probably be in June.

The session was most profitable, and the good people of East End entertained the ministers well. Reverend Salmon was complimented highly for the splendid arrangements, and the manner in which they were carried out.

The reports showed the district to be among the best of the East Ohio conference, Doctor Jackson being ably assisted by an excellent corps of ministers and laymen.

To the Ladies.

The ladies of East Liverpool and vicinity who desire information that will add to their happiness and insure health, should not fail to call on Doctor Wood at the Lakel house, where he can be consulted until Saturday night, Nov. 13, until 9 o'clock.

Klondyke

RECENTIFICATION OF THE PROPERTY OF THE PROPERT

The Land of Golden Nuggets.

JOSEPH LADUE,

the new Bonanza King of the Klondyke Gold Regions, gives the facts. His book reads like "The Arabian Nights," BUT Joseph Ladue KNOWS whereof he writes. He was the first man on the spot when the first gold was discovered last August, 1896. He located one rich claim and immediately purchased welve others at a low price before their value was known. He has refused \$100,000 for any ONE of these claims, as they are rich with virgin gold nuggets, beyond the dream of avarice. Joseph Ladue then

Established Dawson City

at the mouth of the Klondyke and Yukon Rivers, by erecting the first house in the region in September, one month after the gold was first discovered. He bought 178 acres from the government on the city site where his town lots 150x50 are now selling for \$5,000 each.

Mr. Ladue was fortunate enough to be successful in his trading post investments to have on hand ample capital to carry out his plans, and there is no man living who is better posted on Alaska and the great North West Territories than Mr. Joseph Ladue. He has just returned from that country to his old home in Schuler Falls, N. Y., where he passed a large portion of his boyhood and early manhood. Mr. Ladue left his home nearly twenty years ago to seek his fortune in the west going first to the Black Hills, where he was successful in gold mining, thence to Arizona and the Pacific coast and finally located in Alaska and the northwest, where he has covered almost the entire country since 1882. Mr. Ladue is a typical pioneer: strong, hardy and resolute—a man of iron as one must needs be to go through the hardships he has and come out with a constitution unbroken and unimpared at about the age of 43. Mr. Ladue has not only worked his muscles to good advantage to himself with the result of an abundance of the world's goods, far beyond the dreams of men, but he has evidently all this time been closely observing the conditions of that strange country-the Yukon Valley-which has so suddenly become one of the great centers upon which human interest throughout the world is focussed.

When the wonderful stories began to come down from the Yukon country it was naturally concluded that it was at least half exaggeration. That any Book Work. such amount of gold could be taken in so short a time from a country like that under the most most unfavorable conditions was held to be incredible. But when the great bags of virgin gold began to be poured out upon mint counters ın San Francisco under the eyes of the whole world (for modern journalism does this, annihilating time and space) people began to wonder and the wonder grew day by day as the real facts were disclosed, and now people who are well informed as to the facts declare that half the truth has not been told of the Our Type. golden treasures of the Yukon Valley.

As we have already said, there is no man today alive who knows more about this wonderful country than does Mr. Ladue. What makes his talk of it specially interesting and reliable is the fact that his knowledge of it is practical. It has not been gained from hearsay nor from desultory visits made now and then at certain favorable seasons of the year, but from steady living there through the long summer days and the long winter nights, year in and year out for 15 years, where he now owns the best mining claims on the Klondyke and its tributaries.

THE SEASON IS OPEN

Quail Hunters Went to the Country In Force.

PLENTY OF BIRDS THIS YEAR

An Unusually Good Time Is Anticipated. Local Sportsmen Will Not Confine Their Pleasure to This Particular Part of the

The quait season opened today, and in spite of the inclement weather a great many sportsmen left the city this morning and spent the day in the woods and fields. The season does not close until Dec. 15, by which time the quail population of Ohio will doubtless be materially decreased.

A rigid enforcement of the law and the weather of last winter have combined to do much for the hunters, since there are more birds in this section than have been known in many years. There was a noticeable scarcity of severe storms and the game wardens have done the rest. There are many coveys of quail and many birds in each covey. Sportsmen anticipate a very good sea-

Although the fields and woods of this section will be scoured for birds, all of East Liverpool's hunters will not stay near home. A number of parties have left the city for favorite hunting grounds and others will go next week.

STILL HERE.

Another Case of Diphtheria Was Reported.

A new case of diphtheria made its appearance in the city yesterday afternoon and was immediately quarantined by Sanitary Officer Burgess. The afflicted party is the 15-months-old child of Mr. and Mrs. Frank Morseh, who live in a shanty boat at the foot of Second street.

The little child of Mr. and Mrs. Fred Goppert, Pennsylvania avenue, who has been ill with scarlet fever, is rapidly improving, and is now out of danger.

On the River.

The river continued to rise slowly yesterday. The stage of water last night was 2.7 feet, and rising. Effects of the general rains have only begun to reach Pittsburg. It is thought a five foot stage may be reached today or tomorrow. At all events the outlook is that the lower river packets will soon be able to resume business.

The ferryboat did not start yesterday, as was expected, as some of the machinery needed repairing.

Not Talking Polities.

The genial countenance of R. N Chamberlain, of East Palestine, was seen at the Thompson House last evening, but when questioned concerning the nature of his visit the gentleman deelared he was not here for political purposes, he knew nothing about the political situation, and he didn't have time to talk politics.

Promoted.

W. C. Blanchard, the well known Cleveland insurance man, was in the city yesterday on business.

Mr. Blanchard was recently promoted, and will the first of the year take charge of his company's business in a leading New England state. The position carries with it a splendid salary.

Doing Good Work.

Captain Martin, who has charge of Money to Loan the work at the Merrill dam, put 20 teams at work vesterday clearing away the bar at the mouth of Raccoon creek. The government engineers are very anxious to have the task completed before the river becomes navigable.

New Residents.

The first movings of the week were handled at the freight depot yesterday. The first to arrive were the effects of J. N. Hughes, of Steubenville, then those of F. Patrick Judge, of Pittsburg, came in on the Pittsburg local.

A Wise Man.

A wise man will hear and increase learning, and the afflicted man of understanding will call and see Dr. D. L. Wood, at the Lakel House, who will remain until Saturday night, Nov. 13. *

A Singular Freak of Nature.

They raise all sorts of freaks in New Mexico, but the most novel one recent y reported is a calf monstrosity. The cow that gave birth to it belonged to the La Cueva Ranch company. The calf had two perfectly formed and fully developed heads joined to one body—that is, there was apparently but one body, but an examination revealed surprising things. it showed that the wonderful calf was practically a double animal. There were two fully developed hearts and two sets of lungs, two sets of stomachs and, in fact, two of nearly all the vital organs, although some of they were merely ra dimentary. Another strange thing about this strange calf was that it had a fifth leg, which was attached to the brisket of the animal. Now the calf is dead, and wolves are responsible for the loss to the museum managers of a great drawing card. A pack of wolves attacked and killed both cow and calf. The latter's hide was saved, however, and will be stuffed and exhibited, -Exchange.

THE SEASON IS OPEN

Quail Hunters Went to the Country In Force.

PLENTY OF BIRDS THIS YEAR

An Unusually Good Time Is Anticipated. Local Sportsmen Will Not Confine Their Pleasure to This Particular Part of the

spite of the inclement weather a great many sportsmen left the city this morning and spent the day in the woods and fields. The season does not close until Dec. 15, by which time the quail population of Ohio will doubtless be materially decreased.

A rigid enforcement of the law and the weather of last winter have combined to do much for the hunters, since there are more birds in this section than have been known in many years. There was a noticeable scarcity of severe storms and the game wardens have done the rest. There are many coveys of quail and many birds in each covey. Sportsmen anticipate a very good sea-

Although the fields and woods of this section will be scoured for birds, all of East Liverpool's hunters will not stay near home. A number of parties have left the city for favorite hunting grounds and others will go next week.

STILL HERE.

Another Case of Diphtheria Was Reported.

A new case of diphtheria made its appearance in the city yesterday afternoon and was immediately quarantined by Sanitary Officer Burgess. The afflicted party is the 15-months-old child of Mr. and Mrs. Frank Morseh, who live in a shanty boat at the foot of Second street.

The little child of Mr. and Mrs. Fred Goppert, Pennsylvania avenue, who has been ill with scarlet fever, is rapidly improving, and is now out of danger.

On the River.

The river continued to rise slowly vesterday. The stage of water last night was 2.7 feet, and rising. Effects of the general rains have only begun to reach Pittsburg. It is thought a five foot stage may be reached today or tomorrow. At all events the outlook is that the lower river packets will soon be able to resume business.

The ferryboat did not start yesterday, as was expected, as some of the machinery needed repairing.

Not Talking Polities.

The genial countenance of R. N. Chamberlain, of East Palestine, was seen at the Thompson House last eventhe nature of his visit the gentleman de-clared he was not here for political pur-poses, he knew nothing about the white the sales department and office of a six kiln pottery. None but experienced men will be considered. Write at once to F. A. Wilcox, Akron, Ohio. ing, but when questioned concerning political situation, and he didn't have time to talk politics.

Promoted.

W. C. Blanchard, the well known Cleveland insurance man, was in the city yesterday on business.

Mr. Blanchard was recently promoted, and will the first of the year take charge of his company's business in a leading New England state. The position carries with it a splendid salary.

Doing Good Work.

Captain Martin, who has charge of the work at the Merrill dam, put 20 teams at work yesterday clearing away the bar at the mouth of Raccoon creek. The government engineers are very anxious to have the task completed before the river becomes navigable.

New Residents.

The first movings of the week were handled at the freight depot yesterday. The first to arrive were the effects of J. N. Hughes, of Steubenville, then those of F. Patrick Judge, of Pittsburg, came in on the Pittsburg local.

A Wise Man.

A wise man will hear and increase learning, and the afflicted man of understanding will call and see Dr. D. L. Wood, at the Lakel House, who will remain until Saturday night, Nov. 13. *

In New Quarters.

Holiness Ward and his few select followers have rented a basement room in the Second street opera house block, and meetings are conducted every other night.

A Needed Improvement.

Thursday afternoon Contractor Ryan will commence relaying the pavement on the east side of West Market street from the Horn switch to Spring street. SPICY....

A Singular Freak of Nature.

They raise all sorts of freaks in New Mexico, but the most novel one recent y reported is a calf monstrosity. The cow that gave birth to it belonged to the La Cueva Ranch company. The calf had two perfectly formed and fully developed heads joined to one body-that is, there was apparently but one body, but an examination revealed surprising things. it showed that the wonderful calf was practically a double animal. There were two fully developed hearts and two sets of lungs, two sets of stomachs and, in fact, two of nearly all the vital organs, although some of they were merely ru dimentary. Another strange thing about this strange calf was that it had a fifth The quait season opened today, and in leg, which was attached to the brisket of the animal. Now the calf is dead, and wolves are responsible for the loss to the museum managers of a great drawing card. A pack of wolves attacked and killed both cow and calf.
